DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, drawn to a method and a system comprising receiving a query, determining between a commercial and non-commercial query and processing the query in multiple manners, classified in class 707 subclass 3 "Query Processing."
 - II. Claims 12-41, drawn to a method and a computer-readable medium comprising creating a list of commercial query patterns based on the targeted words or phrases, classified in class 705, subclass 1 "Automated Electrical Financial or Business Practice or Management Arrangement."

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method for determining whether the query is a commercial query or a non-commercial query; invention II has separate utility such as a creating a list of commercial query patterns. See MPEP § 806.05(d).

2. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
3. A telephone call was made to Mr. John Harrity on 3/15/2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2161

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Monica M. Pyo whose telephone number is 571-272-8192. The examiner can normally be reached on Mon-Fri 6:30 - 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeffrey Gaffin can be reached on 571-272-4146. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
